AI-Prowler

Safety Guidelines 2026

Effective Date:	January 1, 2026	**Policy Owner:**	Human Resources & Operations
Last Revised:	September 2026	**Applies To:**	All AI-Prowler Employees & Contractors

1. Purpose

AI-Prowler is committed to providing a safe, healthy, and secure work environment for all employees, contractors, and visitors. These Safety Guidelines establish the standards and expectations that every member of the AI-Prowler team is required to follow to protect themselves, their colleagues, and company assets.

Compliance with these guidelines is mandatory. Violations may result in disciplinary action up to and including termination of employment or contract.

2. Scope

These guidelines apply to all AI-Prowler employees (full-time, part-time, and temporary), contractors, interns, and visitors operating in any AI-Prowler facility, remote workspace, or on-site client location. All individuals are responsible for understanding and adhering to these policies.

3. General Workplace Safety Rules

All employees must follow these core safety rules at all times:

- Keep all work areas clean, organized, and free of clutter or trip hazards.
- Report any unsafe conditions, damaged equipment, or potential hazards to your manager or HR immediately.
- Never block emergency exits, fire extinguishers, first aid kits, or safety equipment.
- Use company equipment only for its intended purpose and in accordance with provided instructions.
- Do not engage in horseplay, reckless behavior, or any activity that could endanger yourself or others.
- Personal protective equipment (PPE) must be worn whenever required for a task or environment.

- Alcohol, illegal substances, and unauthorized weapons are strictly prohibited on company premises.

Employees working remotely are responsible for maintaining a safe and ergonomic home workspace, including proper seating, lighting, and ventilation.

4. Emergency Procedures

All employees must be familiar with emergency procedures for the facilities where they work. In the event of any emergency:

- Remain calm and follow instructions from designated safety personnel or emergency responders.
- Evacuate the building immediately when an alarm sounds — do not stop to collect personal belongings.
- Use designated emergency exits only. Never use elevators during a fire or building emergency.
- Proceed to the designated assembly point and wait for an all-clear from management or emergency services.
- If you discover a fire, activate the nearest fire alarm pull station and call 911 immediately.
- In the event of a medical emergency, call 911 and notify HR or a manager right away.
- In the event of a security threat or active threat situation, follow the Run-Hide-Fight protocol and call 911.

Emergency contact numbers and evacuation maps are posted at all AI-Prowler office locations. Remote employees should keep local emergency numbers accessible at all times.

5. Incident Reporting

Every workplace incident, injury, near-miss, or unsafe condition must be reported promptly. Early reporting helps prevent future incidents and ensures affected employees receive appropriate care.

- Report all injuries, accidents, or near-misses to your manager and HR within 24 hours of the incident.
- Complete an Incident Report Form (available in the Documents section of the HR Portal) as soon as possible after the event.
- Seek medical attention immediately for any injury — do not delay treatment.
- Preserve the incident scene when safe to do so, to assist in investigation.
- Cooperate fully with any safety investigation conducted by HR or management.

Retaliation against any employee for reporting a safety concern or incident in good faith is strictly prohibited and will result in disciplinary action.

6. Equipment Safety

AI-Prowler relies on a variety of technology and office equipment. All employees must follow safe equipment practices:

- Inspect equipment before use. Report any defects, damage, or malfunctions to IT or your manager immediately — do not attempt unauthorized repairs.
- Do not overload electrical outlets or use damaged power cords, cables, or adapters.
- Power down and unplug equipment before performing any cleaning or minor maintenance.
- Keep liquids away from all electronic equipment including computers, servers, and networking hardware.
- Company-issued laptops, devices, and equipment must be handled with care and stored securely when not in use.
- Follow all manufacturer guidelines and company IT policies when operating specialized equipment.
- Return all company equipment in good working condition upon separation from AI-Prowler.

Intentional misuse or negligent damage to company equipment may result in disciplinary action and/or financial liability.

7. Health & Wellness

AI-Prowler values the physical and mental health of every team member. The company is committed to fostering a healthy work environment and supporting employee wellbeing.

- Take regular breaks to prevent eye strain, repetitive stress injuries, and mental fatigue — particularly when working with screens for extended periods.
- Set up your workstation ergonomically: monitor at eye level, feet flat on the floor, keyboard and mouse within comfortable reach.
- If you experience symptoms of illness that may be contagious, work from home or take sick leave to protect your colleagues.
- Utilize available Employee Assistance Program (EAP) resources for mental health support, stress management, and personal challenges.
- Report any workplace conditions that are negatively impacting your health or wellbeing to HR.
- AI-Prowler encourages physical activity, healthy habits, and maintaining a sustainable work-life balance.

Employees experiencing work-related health concerns should contact HR to discuss accommodations or support options.

8. Cybersecurity & Data Safety

As an AI and technology company, AI-Prowler's digital safety is as important as physical safety. All employees must:

- Use strong, unique passwords and enable multi-factor authentication on all company accounts.
- Never share login credentials, access tokens, or sensitive data with unauthorized individuals.
- Lock your workstation whenever you step away, even briefly.
- Be vigilant against phishing emails, suspicious links, and social engineering attempts — report them to IT immediately.
- Use only company-approved software, tools, and cloud services for work-related tasks.
- Do not store sensitive company or client data on personal devices or unauthorized cloud services.

Cybersecurity incidents, data breaches, or suspected unauthorized access must be reported to IT immediately. Refer to the AI-Prowler Data Privacy & Confidentiality Policy for full details.

9. Harassment & Workplace Conduct

AI-Prowler is committed to maintaining a respectful, inclusive, and harassment-free workplace. All employees are expected to:

- Treat every colleague, client, and visitor with dignity and respect regardless of role, background, or identity.
- Refrain from any form of harassment, discrimination, bullying, or intimidation — verbal, physical, or digital.
- Report any witnessed or experienced workplace misconduct to HR promptly and confidentially.

Violations of workplace conduct standards will be investigated and addressed in accordance with AI-Prowler's disciplinary policies.

10. Policy Acknowledgment

All AI-Prowler employees and contractors are required to read, understand, and acknowledge these Safety Guidelines upon hire and annually thereafter. Signed acknowledgments are retained in each employee's personnel file.

AI-Prowler reserves the right to update or modify these guidelines at any time. Employees will be notified of significant changes. Questions about these guidelines should be directed to Human Resources.
